Consolidation of School Districts.

A movement is on foot to consolidate the various school districts of Boxelder counties of the state.

Co. Supt. A E Jensen, appeared at the last meeting of the Board of County they may elect. Commissioners and requested that the school districts be consolidated. Action was deferred.

J C Cutler and James Garbanati of Snowville were in town Wednesday and expressed themselves, and the sentiments of the people of that place, as being opposed to the conso lid tion movement.

A petition has been sent from Snowville to the County Commissioners requesting them to defer action until the matter has been thoroughly ventilated.

In conversation with a number of our leading citizens we find that the consolidation question is not thoroughly understood by our citizens and many expressed themselves that more light on the subject should be given out too hasty in granting the request of the present a healthy appearance. Superintendant.

The columns of the Globe are open to the public for matter on this important topic and we would be pleased to publish anything FOR or AGAINST the movement so that our citizens can judge for themselves which is the best thing for the county.

We, like many others, are straddle of the fence and don't know which side to

Davis county is confronted with the same proposition and the following from the Davis County Argus will be of interest to our readers:

attention to the petition of E M Whitesides and twenty-six others asking the commissioners of Davis county to consolidate the school districts of the county into a district of the first class.

It is highly important for the people to thoroughly understand just what this Descret News. means to the various districts and to the county as a whole. The fact that the petition is "fathered" by a gentle who is so familiar with the school interests of the county as is Superintendant Whitesides leads the average citizen to accept without much doubt the idea as being for the best.

The Argus is fully converted to this belief that one first class district is much better than it is at present. But how to arrive at the point of an equitable consumstion is the question that seems hard to determine. There are two large new school houses in the county - one at Terms cash. Garland Mercantile Co. Bountiful and one at Kaysville, both built largely by local taxation. Now whether this situation will right itself automatically by maintaining local boundary lines of taxation, or whether the new district is to absorb these new houses and establish a blanket tax for new houses to be built, thus working an unfair condition against those that have already built their own school houses. This phase of the situation must be met and satisfactorally answered before sanc tion will be given by the public.

Another point: Can our commissioners under the new law, order a consolidation of the school distrists without reference to the people? Some people say they can, but tertainly they will not order such consolidation without regard to the peoples' wish.

According to the notice given the publie, one or more persons may appear before the board on Monday, May 20, 1907, and show cause why such an order may not be entered. Thus it is seen a very important matter hangs by the mere cap- town.

rice of a few people who may be suffielently interested to block a good messure or, perchance, promote an unfair proposition. The Argus thinks the commissioners can well afford to give the people a full opportunity to say just what they want to do, and in the meancounty as in Weber county and other time give Mr. Whitesides and those on the other side, if there shall be any, a better chance than merely appearing before the board to endorse or protest as

> By all means give the people a chance to know and say what they want done, and do not use such arbitrary means as the new law seems to countenance.

Beets in Excellent Condition.

Recent rains have proved very beneficial to all crops of the Bear River Valley and especially so to sugar-beets. It is impossible to estimate the amount of good the showers have done in this vici-

Most all of the beets are up and look ing fine and an immense crop this season will be the outcome.

The warm sunshine after the recent and that Commissioners should not be showers certainly makes the beet fields

M. I. A. Conference.

Brigham City, May 13 .- A well attended Mutual Improvement conference of the Boxelder Stake was held in the Brigham City tabernacle yesterday, pled up for the past few days. Supt. Earnest P Horsely presiding, nearly all the associations of the stake were represented. Separate officers' meetings The season's work is being completed by were held at 10 a. m., during which the vacancy in the Young Ladies' Stake Board, caused by the death of President Hattie Wight about a month ago, was filled by Miss Eliza Thompson being chosen for that position. Miss Thompson selected the counsellors to the former In last week's Argus we published a president, Mrs Minnle H Jensen and notice to taxpavers and citizens of Davis Mrs. Maggie R Wight as her counsellors. county signed by Clerk Stable, cailing At 2 and 7:30 p m, public meetings were held, when excellent programs were carried out and brief remarks were made of San Jose, California. by visitors, among whom were Elder Rulon S Wells, Mrs. Minnie J Snow and Miss Campbell of the general board .-

Inter-Osmogene

Clouds of black smoke arose from the Sugar factory smoke stacks Thursday and the big whistle blew in the evening announcing the opening of the Inter-Osmogene campaign, Supt. Edwards informed us that he was steaming up the crystalizers and preparing for the campaign opening Monday and on that day will begin spinning brown sugar and that the campaign would last from 60 to 75 days.

Calvin Mayfield Kicked.

Thursday morning as Calvin Mayfield entered his stable to care for his horses, one of the animals became frightened, reared up and struck him a blow on the hand with its fore foot knocking him backward. The animal in the next stall kicked him on the thigh at about the same time and as a result of the accident, Cal has been considerable crip-
